

May 18, 2021

The Delta Flight Museum has been closed since March 14, 2020 because of the COVID-19 pandemic. Since that time we have been a socially distanced Delta Air Lines reservation call center, a Covid testing site for Delta employees, and a Covid vaccination site. The GEMA-run mass vaccination site in the parking lot, open to the general public since February, will be closing this Friday; and the smaller CVS-run vaccination site for Delta family and friends in our hangars will wrap up mid-June. With these vaccination sites drawing to a close, today we are pleased to announce that **we will reopen to visitors on Thursday, July 1, 2021!**

Starting July 1st, we will be open Thursdays through Sundays 10 a.m. – 4 p.m. with the 747 plane open 11 a.m. – 3 p.m. Our goal is to add Mondays and Tuesdays back to the schedule later this summer.

Face masks will be required in all Museum buildings and aircraft, and we may need to temporarily hold the entrance lines into the 747 and 767 planes as those are tighter spaces. As we start to work through our new logistics, we are deferring group reservations until we resume our normal schedule. However, we are currently booking meetings and events.

For any questions or concerns related to the Delta Flight Museum, please contact us at (404) 715-7886 or museum.delta@delta.com. We look forward to seeing you again soon!

Sincerely,

A handwritten signature in black ink that reads "John W. Boatright".

John W. Boatright
